

-Press release-

Carbios files its 2019 Universal Registration Document

Clermont-Ferrand, France, April 30, 2020 (6:00 PM CEST) - [CARBIOS](#) (Euronext Growth Paris: ALCRB), a company pioneering new bio-industrial solutions to reinvent the lifecycle of plastic and textile polymers, announces to its shareholders and the financial community that its 2019 Universal Registration Document including the annual financial report, the management report and the report on corporate governance was filed with the French Financial Market Authority (Autorité des marchés financiers) on April 29, 2020 under the number D.20-0412.

Copies of the Universal Registration Document are available in French free of charge, pursuant to applicable law, and can be downloaded from the Company's web site at www.carbios.fr under the « Investors – Regulated information – Financial reports » section, as well as on www.amf-france.org.

About Carbios:

[Carbios](#) is a green chemistry company whose innovations help address the environmental and sustainable development challenges facing manufacturers. Since its creation in 2011 by [Truffle Capital](#), the Company has developed, through biotechnology, two industrial processes that revolutionize the biodegradation and recycling of polymers. These innovations, a world first, optimize the performance and lifecycle of plastics and textiles by exploiting the properties of highly specific enzymes.

Carbios' economic development model is based on the industrialization and commercialization of its products and/or enzymes, technologies and bioprocesses through license concessions directly or through joint ventures to major industrial players or sectors concerned by the Company's innovations. As such, Carbios created the joint venture Carbiolice in September 2016, in partnership with Limagrain Ingredients and the SPI fund operated by Bpifrance. This company, of which Carbios has majority control, will exploit the first technology licensed by Carbios by producing enzymatic granules for the production of biodegradable and biobased plastics.

Carbios benefits from the qualification "Innovative Company" of Bpifrance allowing the eligibility of the Company's securities for the investment of Mutual Funds Placement in Innovation (FCPI). For more information, please visit: www.carbios.fr

Carbios is eligible for the PEA-PME, a government program allowing French residents investing in SMEs to benefit from income tax rebates.
